The International Tracking Standard Foundation

Founders of I-REC

This Redemption Statement has been produced for

MANİSA TUR VE OTELCİLİK SANAYİ VE TİCARET ANONİM ŞİRKETİ

by

AYDEM YENILENEBILIR ENERJI A.Ş.

confirming the Redemption of

437.000000

I-REC Certificates, representing 437.000000 MWh of electricity generated from renewable sources

This Statement relates to electricity consumption located at or in

Kuşlubahçe Mah.1. Mimar Sinan Bulvarı No:51/A İstanbul Yolu Üzeri Şehzadeler – MANİSA
Turkey

in respect of the reporting period

2025-01-01 to 2025-12-31

The stated Redemption Purpose is

Certifying Renewable Energy Use

Ev.

Redeemed Certificates

Production Device Details

Device	Country of Origin	Energy Source	Technology	Supported	Commissioning Date	Carbon (CO_2 / MWh)
Bereket 1-2 Hydroelectric Power Plant	Turkey	Hydro-electric	Run of river	No	1997-11-16	0.000000

Redeemed Certificates

From Certificate ID	To Certificate ID	Number of Certificates	Offset Attributes	Period of Production	Issuer
0000-0224-6737-4034.000000	0000-0224-6737-4470.999999	437.000000	Incl	2025-02-01 - 2025-09-30	Foton

Auditor Notes

This statement is proof of the secure and unique redemption of the I-RECs stated above for the named beneficiary to be reported against consumption in the country during the reporting year stated. I-RECs are assigned to a beneficiary at redemption and cannot be further assigned to a third party. No other use of these I-RECs is valid under the I-REC Standard.

Where offset attributes are 'incl' the device registrant, who exclusively holds the environmental attribute rights, has undertaken never to release carbon offsets in association with these MWh; 'excl' means carbon offsets relating to these MWh may be traded independently at some point in the future.

Thermal plants emit carbon as part of the combustion process. While this is not zero carbon, it is generally recognised as carbon neutral where the source is recent biomass.
